

Year 3 - Spring 2

Maths: This term we will be continuing with Multiplication and Division. Children will learn how to use the expanded method to help them solve multiplication problems and the partition method to solve division problems. Children need to be confident with their 2, 3, 4, 5, 8 and 10 times tables. It would be helpful if children could practice these at home.

Computing : Pupils will learn to use Scratch, including understanding blocks and loops in coding. They will explore remixing code, debugging errors, and recognizing how code controls on-screen actions. They will also learn about decomposition and algorithms to create accurate programs.

English: We will be looking at two texts in English this half term. Our first text is called 'Arthur and the Golden Rope' this text is a quest story and the children will learn a variety of skills to help them write their own quest adventure.

During the second half of the term we will be looking at the text, Ask Dr K Fisher. The children will then write a letter offering advice along with a reply to the problem.

Science: Our science unit is called Amazing Bodies. We will revisit the importance of eating the right amounts of different types of food, whilst extending this knowledge to understand that the food we eat provides us with the nutrition that our bodies require to remain healthy. Children will also learn that humans and some other animals have skeletons and muscles for support, protection and movement.

PE: PE will be on Mondays this half term. Children should wear their full PE kit. If they don't have one, they can wear a plain white or blue polo top with shorts, leggings, or joggers. No football kits.

French:

This half term, children will listen and respond with words and actions. They will recognize key sounds in writing and match words to pictures or actions. They will practice pronunciation and take turns speaking clearly.

Design Technology:

In Design Technology children will be designing and creating a pneumatic mechanical toy system.

Geography: This half term, children will be learning about Earthquakes. Children will explore why it is that earthquakes only tend to occur in particular areas of the world as a consequence of the pattern and movement of the tectonic plates of the Earth's crust. Children will investigate the causes and impact of one specific recent earthquake in one particular location in the world, where earthquakes occur frequently, before looking more widely at global patterns.

Collins

PSHE: This term we will be looking at Citizenship. We will be looking at people's rights and responsibilities of children and adults. How important recycling is and how we can do more at school. We will be finding out about our local communities and how these communities help people. We will also discuss fundraising that we can do, to support our local community.

PSHE Association

Kapow Primary

R.E: This half term we will be answering the question 'What does it mean to be a Hindu in Britain today?' In this unit, students explore the Hindu belief in Brahman and how it is expressed in daily life. They will learn about Puja at home, worship in the mandir, and the celebration of Diwali. Students will also reflect on the concept of dharma through two Hindu stories.
